

BUIP122: Remove Norway from membership

Submitted by: imaginary_username

Date: 2019/4/14

Summary

A Bitcoin Unlimited member has recently participated in an online witchhunt that attempts to publicize real-life locations of hodlnaut, an online personality that insulted prominent BSV leaders. Such an act endangers the personal safety of regular persons, and he has shown neither remorse nor ignorance about the potential consequences of his act. It is my opinion that continued membership of such a malicious individual impedes future activities of BU, and he should be removed from membership rosters.

Proposal

Archived versions of above, as well as snapshot of the act of broadcasting:

<http://archive.ph/VYQno>

<http://archive.ph/vujiz>

This BUIP will remove member #51 [@Norway](#), aka Stein H Ludvigsen as he identifies himself, from membership rosters as well as strip him of all voting powers immediately upon conclusion of voting.

In accordance with the rules clarified here: <https://bitco.in/forum/threads/buip116-articles-of-federation-adjustment.23726/page-2#post-91701>, it must pass with a majority of votes (greater than 50%) with at least 50% of members voting OR a 75% super-majority of votes with at least 25% of members voting to take effect. If it does not take effect, another vote will be barred from proposal for the next 4 months.

EDIT: Updated passing threshold to reflect external clarification.
